SKILLS

JavaScript, React, Redux, HTML5, CSS3, SCSS, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, PostgreSQL, Webpack, jQuery, AWS, Git

PROJECTS

SoundCRUD (Ruby on Rails, React, Redux, Javascript, PostgreSQL, HTML5, CSS, Webpack, AWS, Heroku)

[live](#) | [github](#)

SoundCRUD is a clone of SoundCloud in which users can upload, share, and play music tracks with other users.

- Employed eager loading to solve the issue of N+1 querying of tracks and reduce unnecessary requests to the backend
- Incorporated HTML5 media web components with React/Redux to allow for continuous audio playing while navigating to different paths throughout the app
- Utilized Amazon Web Services S3 (AWS) to store and retrieve user uploaded media files and ensuring content security with AWS IAM

PharmAssist (React, Redux, Javascript, MongoDB, Express.js, Node.js, HTML, Sass, Webpack, Heroku)

[live](#) | [github](#)

PharmAssist is a web app that assists users in keeping track of their medication regimen and increasing their medication adherence.

- Built modals that populate with drug info fetched from the openFDA API by incorporating GET requests with the promise based Axios library
- Implemented Sass/SCSS with keyframes to provide seamless transitions and a visually pleasing user interface to enhance the user experience
- Constructed a calendar from scratch using the Moment.js library that is immediately responsive to user input upon creation/updating/deletion of a medication in their individual regimen

Library of Legends (Javascript, HTML5, CSS, Webpack)

[live](#) | [github](#)

Library of Legends is a library of all champions in the game League of Legends where users can view profiles of each champion.

- Employed DOM manipulation in VanillaJS to select and render nodes selected by the user through event handling of their interactions with the application
- Utilized media queries to increase responsiveness to changes in screen resolution and better the user experience

EXPERIENCE

Staff Pharmacist, Pharmacist In Charge

Dec 2018 - July 2021

Duane Reade Pharmacy

- Reviewed and processed over 400 prescription and vaccine orders daily while maintaining standards for patient safety and health outcomes
- Streamlined and created an efficient workflow for the whole pharmacy team when administering over 100 vaccines a day during the initial COVID vaccine rollout and assuring that day to day prescription processing and operational duties were still completed
- Trained and mentored both newly hired pharmacy technicians and pharmacist in integrating into a fast paced work environment while ensuring a positive customer experience
- Assumed the role of PIC (Pharmacist In Charge) just 2 months into starting as a newly graduated pharmacist and took on all managerial duties of the pharmacy when the previous PIC went on leave

EDUCATION

Web Development - App Academy

Fall 2021

Immersive software development course with a focus on full-stack web development, which entailed 1000+ hours of coding.

Doctor of Pharmacy (Pharm.D) - St. John's University

Spring 2018

6-year program focusing on the clinical and academic knowledge necessary to promote and deliver patient-centered care in all pharmacy practice settings that results in a Doctorate in Pharmacy
